Few things for you today that may be of interest.

We have found draft of sputnik suit and is revising. We thinks it is very, very good. We plan now to be in Pasadena Saturday and probably we will not get back until late Sunday afternoon. Things that need attention while we are away. [illegible] to make calls out, so that important [illegible] will be.

[illegible] I have had a chance to see the three books I have with, of considerable interest to the discussion of the [illegible] on the risk-holding of the [illegible] of the people's [illegible].

[illegible] a thing there by several firms and [illegible] refusal of a [illegible] of the suit, I am drafting a [illegible] on that, to [illegible] the executor of the estate.

[illegible] was given [illegible] until 3/17 to [illegible] to give us the copy of the cover [illegible] file. This is a [illegible] possibility, [illegible] permit [illegible] with their [illegible] appear [illegible]. [illegible] sent us a copy of his brief [illegible] formalizing this agreement. [illegible] the story, and make [illegible] like they have a hot [illegible]. We had [illegible] agreed upon a course of action [illegible], both, and later [illegible] day the next [illegible] from [illegible] bottle [illegible]. [illegible] cover [illegible], but if we did we would ourselves [illegible]. [illegible] Hardley, [illegible] himself-[illegible] some suite of offices, [illegible] Division. [illegible] had no idea what [illegible] and [illegible] it is [illegible] hand can explained [illegible] presence. [illegible] don't remember it. [illegible] and reported to [illegible] phone Kelley and [illegible] reasonable refusal. [illegible] for a month and asked if [illegible] until his return. [illegible] give all the necessary [illegible]. [illegible] like service but [illegible] it...I have also [illegible] whiskey, sherry and [illegible], which may explain [illegible], but now in any way with which a decent man could [illegible]. [illegible] they are as high for nothing, but [illegible]. [illegible] the fact that they may be [illegible] up [illegible] matter things. [illegible] into the days or the evils thereof. Best regards,

Harold Feinberg
